the contributions of carl jung to understanding of the human psyche are immense starting as freud s most famous disciple jung soon broke away from his mentor to follow his own lines of investigation and discovery many of jung s ideas are now considered fundamentals in the study of the mind but other more controversial theories dealing with the psychological relevance of alchemy esp astrology and occultism are only now being seriously examined this condensation and summary of jung s life and work by two eminent psychology professors is written with deep understanding and extraordinary clarity and along with its companion volume a primer of jungian psychology is essential reading for anyone interested in the hidden

depths of the mind

historically there were more male therapists and more female patients just as society has changed so has therapy jung's psychology includes the feminine aspects of a man and the masculine parts of a woman of course today it is a complete psyche or an inner marriage in the background would be a mandala which also represents wholeness and individuation synchronicity is an acausal but meaningful relationship which therapy honors jung's psychology also includes the shadow which represents what has been left out the ego in analytical psychology stands for the center of consciousness in the personal self whereas the self is the center of the psyche and totality and links one to spiritual wholeness hence the individuated person has conscious and unconscious archetypes complexes anima and animus or syzygy numinous gnosis typology symbols dreams the shadow and active imagination these aspects of analytical psychology are then discussed and illustrated with a case history in sum the ego is secondary to the self in an individuated person both a mandala and jungian therapy and analysis are associated with wholeness

an excellent primer on jungian concepts highly recommended jung's psychology review by a butler one of the best introductions to jung's psychology andré de koning past president Australian and New Zealand Society for Jungian Analysts Carl Jung was the founder of analytical psychology who revolutionized the way we approached the human psyche drawing on eastern mysticism mythology and dream analysis to develop his theories Jung proposed many ideas which are still influential today including introversion extroversion and the collective unconscious knowledge in a nutshell Carl Jung introduces psychologist Jung's ideas in an engaging and easy to understand format Jungian psychology expert Gary Bobroff breaks down the concepts of the psyche collective unconscious archetypes personality types and more in this concise book he also explores the influence on eastern philosophy and religion on Jung's ideas and how spiritualism enriched his theories with useful diagrams and bullet point summaries at the end of each chapter this book provides an essential introduction to this influential figure and explains the relevance of Jung's ideas to the modern world about the series the knowledge in a nutshell series by Arcturus Publishing provides engaging introductions to many fields of knowledge including philosophy psychology and physics and the ways in which human kind has sought to make sense of our world

twenty five hundred years ago Pythagoras taught that the simple counting numbers are the basic building blocks of reality a century and a half later Plato argued that the world we live in is but a poor copy of the world of ideas neither realized that their numbers and ideas might also be the most basic components of the human psyche archetypes this book traces the modern evolution of this idea from the renaissance to the 20th century leading up to the archetypal hypothesis of psychologist C. G. Jung and the mirroring of mathematical ideas of Kurt Gödel

three windows to spiritual maturity how can a faithful Christian avoid stagnating in their spiritual development moving toward spiritual maturity psychological contemplative and moral challenges in Christian living explores effective ways in which Christian discipleship can grow in spiritual maturity this thoughtful integrative roadmap explains the journey through three interrelated perspectives or windows psychotherapeutic psychology prayer and contemplation and moral theology the author uses numerous examples from everyday life to make the

reflections interesting and practical unlike other books on christian spirituality this book is more challenging and sophisticated in its depth of thought spiritual maturity is a process that begins when a person accepts jesus christ as savior and progresses ongoing through a christian s life moving toward spiritual maturity discusses in detail the challenges one must face including the sustained in depth and faithful attention to psychological wholeness conversion to the true self and interpersonal and social responsibility effective strategies are given through example and personal story making understanding of the principles easier this reflection on christian maturity helps readers to focus directly on the personal issues all must face when attuning to the spirit of christ topics in moving toward spiritual maturity include reforming the wayward self moral or guilt based perfectionism achievement or shame based perfectionism the two types of conversion responsibility and accountability agape and the loving of oneself three virtues at the heart of the responsible life integrity courage and compassion virtues as habits the relationship between personal fulfillment and the christian vocation moving toward spiritual maturity is a unique look at the path toward spiritual maturity and is challenging thoughtful reading for laypersons ministers priests and theological students

an attempt to sort out jung s three interwoven theories of religious experience the scientific psychological the phenomenological mythological and the metaphysical theological this text distinguishes between these three theories so that the interpreter can then make a more discerning response to what jung was in fact doing i e expounding science and phenomenology and metaphysics this work aims to help jung s many sided contribution to be more clearly seen and appreciated

exploring the relevance of jungian theory as it applies to science fiction horror and fantasy films this text demonstrates the remarkable correlation existing between jung s major archetypes and recurring themes in various film genres an introduction acquaints readers with basic jungian theory archetypes before proceeding to film analysis a diverse selection of movie and television summaries illustrate the relationship between a particular jungian image and the examined films among the various jungian patterns studied are the father archetype the split between persona and shadow the search for the grail the alchemist traveler and the development of the child archetype from star wars and planet of the apes to back to the future and indiana jones the interdependence of jungian theory and film themes and contents unfold creative and innovative this text unearths new jungian territory that will appeal not only to psychology and film studies scholars and researchers but also to those studying communication and literature

illustrates the broad scope of analytical psychology and the interrelationship of jung s cultural scientific and clinical work definitions are accompanied by choice extracts from jung s collected works with informed commentary and generous crossreferences

a new edition of a highly regarded textbook that reviews the major theories of counselling and psychotherapy and explains their practical applications in working with individual clients

this introduction to the theories of personality introduces readers not only to the rich history of psychology but to practical information that helps them understand their own lives and

their relationships with other people using a theorist by theorist approach the book summarizes the major theories of personality and emphasizes that the best understanding of personality derives from a variety of viewpoints thus theories representing the psychoanalytic sociocultural trait learning sociological and existential humanistic paradigms are offered as different yet equally valid ways of approaching the study of personality includes a series of experiential exercises what is personality sigmund freud carl jung alfred adler karen horney erik h erikson gordon allport raymond b cattell and hans j eysenck b f skinner john dollard and neal miller albert bandura and walter mischel edward o wilson george kelly carl rogers abraham maslow rollo reese may for anyone wanting a comprehensive understanding of personality and individual differences

contains entries that provide information about some of history's greatest philosophers and philosophical works arranged alphabetically from freud to oakeshott
